## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 6) ☐ Other: \_\_\_\_\_.

## **DETAILED ACTION**

### ***Informalities***

The disclosure is objected to because of the following informalities:

1. Figures 9-11 have been submitted, however, there is no brief description of the drawings on these figures (page 2, lines 2-5). Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 13 is indefinite because the claim lacks essential steps in the method of prophylactic or therapeutic treatment of mycoses. The omitted steps are the method of administration and the outcome of the treatment. Claim 13 is also indefinite because of the use of the term "and/or". The term "and/or" renders the claim indefinite, it is unclear whether the limitation after "and/or" is included or not, and if included is to be read as an alternative "or" or the conjunctive "and". Please use one or the other but not both.

### ***Conclusion***

3. Claim 13 is rejected, it appears claims 1-12 are free of prior art and allowable.

### ***Art of Record***

The following references appear to be closest art to the claimed invention. Barrett *et al.*

Art Unit: 1653

(19 the Symposium of Medicinal Chemistry, 8<sup>th</sup> Annual Meeting of Division of Medicinal Chemistry, Abstract 2P-14, page 123 (1999)) teach the isolation of antifungal agent such as FR901469 that inhibits the synthesis of 1,3- $\beta$ -glucan, and one derivative of FR901469, FR204042 has an ornityl group as R group, however, the derivative does not have an ornityl-ornitylamino as R<sup>1</sup> in the formula (I) of the instant application; Fujie *et al.* (U. S. Patent 5,547,934) teach an antifungal substance of WF11243, which is Aerothricin 3, a starting material for preparing some compounds of formula (I) of the instant application. The prior art does not teach the compounds of Aerothricin having the specific substituents in formula (I) as indicated in the claimed invention. Therefore, it appears that the claimed invention is free of prior art.
